

Copper Cable

1.6T OSFP ACC

General Description

The 1.6T OSFP ACC is a next-generation high-speed copper solution for hyperscale data centers and AI/ML networks. It adopts a hot-pluggable OSFP1600 form factor, with Low power consumption, Low Latency, enabling an aggregate bit rate of 1.6Tbps.

OSFP Serial electrical Interface

- 1.6TAUI-8 C2M electrical interface

OSFP MSA Compliant

- Hot-pluggable OSFP1600 form factor
- Compliant with OSFP MSA
- Compliant with CMIS Rev 5.0

Standards and Low Power Consumption

- Compliant with IEEE802.3dj D1p3
- Less than 3W per end

Technical Data

Model	1.6T OSFP	Transmission rate	1.6 Tb/s (8×200G)
Package Type	OSFP 1600	Transmission distance	2.5 meters
AWG	26	Commercial Temperature	0~70 °C
Power Supply Voltage	3.135-3.465V	Power Consumption	6W
Modulation	PAM4	FEC function	No
Application	Ethernet	Warranty	3 Years
Protocol	IEEE 802.3dj D1p3 compliant (host-based FEC)	Brand	Hermesys
